

# Connecting at Convention

By Kim Simonich

*Events Vice President*

Convention workshops offer a chance to learn new skills, gather information for your club, and have a bit of fun. Best of all, every choice is another chance to make new connections!

Here's the rundown on what we've scheduled for Friday afternoon at convention:

## Connecting to Possibilities

### ***Become a Career Competent Parent***

by Ali Dunn

Do you want to discover the tools and confidence to talk with your children about careers? Join Ali as she provides simple, practical ways to assist attendees in helping their children with their career decisions and development.

*Ali Dunn is an affiliate member and author of four books. She holds a master's degree and has over a decade of experience working in career counseling and instruction. She is also the creator of several eCourses about career exploration. Most importantly she is the mom to identical twins born at 28 weeks.*

## Connecting to Daring Discussion

### ***Lessons in Chemistry Book Club Discussion***

by Dr. Susan Griffith

Join Dr. Susan Griffith as she welcomes us to a book discussion of her favorite 2023 book, *Lessons in Chemistry* by Bonnie Garmus, in her home state of Kentucky. Why *Lessons in Chemistry*? Chemist Elizabeth Zott is not your average chemist. Read the book and come ready to connect with fellow attendees in the book discussion.

*Dr. Susan Griffith is a member of Bluegrass Parents of Twins and Multiples and a booklover extraordinaire. She is the mother of fraternal twin sons, Brandon and Chad.*

## Connecting to Moments of Healing

### ***Relaxing Sound Healing***

by Melodie Wisniewski

This workshop will connect you to relaxation and rejuvenation of your spirit and body through a sound bath featuring crystal singing bowls, Shaman drum, chimes, and other sound instruments. Leave your troubles at the door and nurture your soul with sound healing.

*Melodie Wisniewski is a Master Sound Healing and Reiki Master Practitioner. She's a member of Flamingo Mothers of Multiples and a Past President of Multiples of America.*
