Parents of Children with Autism

You are being asked to participate in an online survey because you are a caregiver of a child, either single birth child, one twin, or twin pair with Autism Spectrum Disorder (ASD). The purpose of this study is to examine parental stress levels of caregivers who have children with ASD. Taking part in the study will take about 15 to 20 minutes to complete. You must be at least 18 years old to participate.

Please enter the URL in a web browser or scan the QR code to participate:
