

## *Multiples of America*

(aka The National Organization of Mothers of Twins Clubs, Inc.) was founded in 1960 for the purpose of promoting the special aspects of child development and parenting related specifically to multiple birth children.

Multiples of America is a network of local clubs representing individual parents of multiples. We also welcome individual and professional affiliate members.

Our goal is to improve public awareness of the needs of multiple birth children by fostering development of local support groups, enhancing the quality of educational materials available to parents, educators and others and by cooperating with and participating in research projects which involve multiples and/or their families.

Multiples of America is a tax-exempt 501 (c)(3) corporation managed by over forty volunteers and funded almost entirely by member dues.
