

There is Help for New National Reps!

By Pam Edelman

Research & Membership Development Vice President

Are you a new National Representative for your club?

Did you know that Multiples of America has a three-part Member Club Manual to help you navigate?

Where do you find it?

The Member Club Manual and many other helpful documents can be found in the Member's Only Section of Multiples of America's website. If you do not have the user name and password, please contact the Executive Office at info@multiplesofamerica.org so that they can verify your membership and forward you the information.

Remember, every December 15th this information changes and it will be published in Fall Mailing 2 that you will receive mid-October.

If you need any help or have questions, please contact the Research and Membership Development Vice President at membership@multiplesofamerica.org.
