### **Multiples of America Gears Up for Month of Giving**

**Franklin, TN** – Multiples of America (also known as the National Organization of Mothers of Twins Clubs, Inc.) is gearing up for its annual giving campaign this April. Focused around the theme of *Support Starts Here: Growing Stronger Together*, the campaign coincides with Multiple Birth Awareness month. This year, the non-profit asks for donations in support of the organization’s mission as they work to reach out into new communities and develop additional ways of helping families of multiples across the nation.

Giving is more than just a financial contribution, though —it’s about making a difference in the lives of parents who are raising twins, triplets or more. It’s about providing the resources and contacts to help a mom with newborn twins who struggles with postpartum depression. It’s about supplying information and expert connections for the parent of triplets who wants to have their children in the same classroom. It’s about bringing together parents of adult multiples to discuss ways they can support their twins through conflicts and continued identity development. As one mother of twins from South Carolina shares, the Multiples of America connection makes a difference through all those ages and stages.

*Looking back, I don’t know what I would have done without my local club and Multiples of America. I was able to take information from a meeting and apply it to my daily life raising my multiples. There isn’t a better source or friendship... And as my multiples got older, I became just like these women and welcomed new members and shared the amazing blessings given to me.*

Consider the facts.

#### **Making the Most of Each Donation**

Every dollar donated to Multiples of America goes directly toward supporting parents of twins, triplets, and more and their families. Our Executive Office is streamlined to maximize efficiency and cost savings with member services standing as the major expenditure on the organization’s budget.

#### **Giving Voice to Parents**

Multiples of America gives parents of multiples a voice. Our board of directors is entirely composed of parents of twins or triplets. The services, support, and research provided by the organization are developed and created by parents of twins or triplets and professionals who work with multiples or the multiple birth community.

#### **Spreading Awareness**

Part of the Multiples of America mission is raising awareness of the unique needs facing parents of multiples, highlighting both the challenges and joys.

#### **Staying Power**

Since 1960, Multiples of America has built a legacy within the multiple birth community. We’ve partnered with other non-profits, international organizations, and world-renowned psychologists and researchers to deliver services needed by members at all ages and stages of parenting.
